

## Ultimate Pita Pizzas

### Recipe Ingredients:

- Pita bread (2/person, the thin kind work better)
- Pizza sauce (tomato paste works fine as well)
- Margarine
- Mushroom
- Cheese
- Onion
- Green Pepper
- Any other topping you like

### Cooking instructions:

-Cover pita with sauce.

-Apply desired toppings to half of pita, add copious amounts of cheese.

-Slowly fold in half so the pita does not break and spread margarine over one side. Place that side down onto the grill and cook slowly over coals.

Spread margarine over the opposite side and flip when the pita is golden brown.

### Variations/Hints:

Another option is not to fold the pita in half and cook open faced. If one chooses to do this, place a pot or metal plate over the pita to trap heat and melt the cheese.
